

Accept an invitation to share a channel

1. Open the invitation.

2. **Sign in.**
3. Review the channel details. If you'd like to either change the channel name or make it a [private channel](#) for your workspace, click the **pencil icon**.
4. Click **Accept Invitation**.

What is a channel?

In Slack, teamwork and communication happen in channels. A channel is a single place for a team to share messages, tools, and files. Read on to learn all about how to create, join, and use channels to collaborate with your teammates.

All about channels

- Channels can be organized by team, project, or whatever else is relevant to you.
- Team members can [join](#) and [leave](#) channels as needed.
- [Threads](#) allow for focused and organized side conversations within channels.
